Eurogypsum is a European federation of national associations of producers of gypsum products (i.e. plaster and plasterboard). It is one of the few fully integrated industries (from cradle to cradle) within the construction products field. The companies which mine gypsum also process it and manufacture the value-added products and systems used extensively in construction and other industries.

With a turnover of EUR 7 billion, the European gypsum and anhydrite industry operates some 146 factories and 209 quarries and generates employment directly to more than 18,000 people and indirectly to 300,000 people. The gypsum industry provides jobs to 1,100,000 plasterers and plasterboard installers. It trains around 25,000 people per year across Europe.

Contact: Tristan Suffys, Secretary General - t.suffys@eurogypsum.org ; +32 491 34 07 90
