### MODERN LIGHTWEIGHT CONSTRUCTION

### FOR SMART CITIES OF THE 21ST CENTURY

### //EXAMPLE

In Germany, more than 1.5 million residential apartments can be built on the roofs of existing buildings in an affordable way in cities with high density of population. The 1.5 million additional housing apartments avoid at the same time land use from 150 to 210 million m².

### POSSIBLE SAVINGS ON ELEVATIONS \_\_\_\_\_ **COMPARISON OF COSTS TO HEIGHTEN NEW BUILDING**

Welcome Address by the President of EBC Mr. Patrick Liébus

#### **>** 09:15 am
